

Creative Technology Department

Year 8 Food Technology Homework

As part of the **homework each week** pupils will organise their ingredients and revise their recipes for practical sessions

Introductory Homework for all: Food Technology Key Terminology Spelling Test

1. Make a list of up to ten types of pasta = 1 credit
2. Create a mood board for packed lunches = 1 credit
3. Create a poster to inform people how to prevent food poisoning = 1 credit

1. Complete research of different pastas. Include graphical drawings of different types as well as descriptions and some recipes they could feature in = 3 credits
2. Design a range of nutritious sandwiches which appeal to teenagers. 3 credits
3. Produce a storyboard of how to make bread.= 3 credits

Orange Strawberries Walnut Muffins

1. Write a letter to sandwich company to try and persuade them to accept your design for a sandwich range = 5 credits
2. Design and make a piece of packaging for a new ready-made pasta product.
3. Design and make a speciality bread which has an unusual flavouring. Bring photos of the manufacture and write instructions of how to make it on a recipe card = 5 credits

Extra Challenge: Make a design folder of a food you have cooked that you will develop = 8 credits

Choose **2 or more** of these home works to complete.

One is due in the 4th week of the rota.

The second is due in the 10th week of the rota.
